Pearl Harbor Report Links Colonel, Alien Contractor

First Large Marion Industry Reaches Fifth War Loan Goal

BLAME TRIAL BILL SIGNED

President Approves Measure
for Court Martial of Kim-
mel and Short.

By The Associated Press
WASHINGTON, June 14—Against the recommendation of the secretaries of war and navy, President Roosevelt today signed legislation extending the statute of limitations for possible trials growing out of the Pearl Harbor disaster and directing the services to investigate the catastrophe and commence proceedings "as the facts may justify."

The measure extends the statute of limitations six months from June 7—until Dec. 7, 1944. Presidential Secretary Stephen Early announced that the President approved the legislation last night, several days after the June 1 deadline for the trials had expired.

In an accompanying statement, the President expressed confidence that congress does not intend for investigations of the Pearl Harbor disaster to interfere with the war effort in any way. It was said that the President had approved the legislation after the President had held a conference with the Secretary of War, General E. A. Tamm, and the Secretary of the Navy, Frank B. Rowan, and the President had approved the legislation after the President had held a conference with the Secretary of War, General E. A. Tamm, and the Secretary of the Navy, Frank B. Rowan, and the President had approved the legislation after the President had held a conference with the Secretary of War, General E. A. Tamm, and the Secretary of the Navy, Frank B. Rowan.

RUSSIANS NOW 30 MILES FROM VIIPURI

By The Associated Press
LONDON, June 14—Red army units have advanced to within 30 miles of the important port of Viipuri, crushing Finnish troops and forcing them to retreat.

The Moscow radio announced today that the Red army had captured the town of Viipuri, a strategic point on the Gulf of Finland. The town is located on the coast of Finland, and its capture would give the Red army a foothold in the Gulf of Finland.

The Moscow radio also announced that the Red army had captured the town of Viipuri, a strategic point on the Gulf of Finland. The town is located on the coast of Finland, and its capture would give the Red army a foothold in the Gulf of Finland.

At the Universal Cooler Corp. rally pictured above, held at noon yesterday, that company became the first large Marion industry to top its Fifth War Loan quota. The photo shows Harold J. Grigsby, War Finance Committee payroll savings chairman, presenting a citation to F. S. McNeal, president of the company, standing in front of the platform. Left to right in the photo are Miss Betty Havens, Mrs. Betty Walters, Mrs. Margaret Rinehart, Miss Mickey Oehler, Pvt. Ivan Ralph, wounded soldier formerly employed at Universal Cooler, Jack Donner, the company's war bond chairman, Mr. Grigsby, Electrician's Mate First Class Clarence Roth of Cleveland, Mr. McNeal, Miss Luella Coffey, Miss Virginia Swisher, Miss Kathryn Burke, Mrs. Alyce Bentley, Golden McGrath, co-chairman of the factory drive, and Ed. C. Walters. All are Fifth War Loan drive officials or bond solicitors.

County's 1st Day War Loan Total \$97,679

Drive Gets Away to Good Start with 12 Per Cent of E Bond Quota Sold; Residential Workers in Action.

Marion county took a long step toward its Fifth War Loan goal in the first day of bond selling yesterday. Developments came rapidly from every quarter of the campaign and included the following highlights:

The day's sales pushed Marion county's total to date up to \$97,679, three per cent of the goal. The E bond total was increased to \$95,925 or nearly 12 per cent of the \$819,000 E bond quota for the county.

The Universal Cooler Corp. was reported by drive officials to be the first large industry to top its goal when employees, in two days, bought several hundred dollars more than its \$65,800 quota.

The residential campaign conducted by Civilian Defense workers yielded \$5,027 as the result of initial calls made last night.

The Huber Mfg. Co. sales blew 18 times yesterday, each blast marking a \$1,000 step toward the quota for that company. It will continue blowing at \$1,000 intervals in the drive.

Block leaders, rural division workers and others reported a busy day's work among their personnel and said their sales helped swell the day's business.

The total bond sales in the county to date were listed at \$97,679 at the war bond headquarters on North State street, but many of the sales of bonds to factory workers and other persons have not yet had time to clear through the banks and be counted into the drive total. E bonds account for \$95,925 of the total. Series F bonds \$1,354 and Series G \$200. These are the only issues to be counted in the campaign until June 26, when other series will be included.

Wounded Veterans Help
The Universal Cooler campaign went over the top by a comfortable margin yesterday at a noon rally despite the fact the company's employment is about 20 per cent less than during the

Residents in the northeast section of Marion will have a chance to contribute to Marion's four-day paper drive tomorrow. Trucks will travel streets of the section and Boy Scouts will assist in collections of paper from front porches. If there is no paper on the porch a Scout will ring the door bell to ask for it.

Residents are asked to have paper on their porches by 3:30 a. m. Paper was collected from homes in the southeast section of the city today, the second day of the current campaign.

Yesterday, Scouts gathered 15 tons, worth \$180, in the southwest section.

ALLIES PRESS NORTH IN ITALY

Fifth Army By-Passes Strong
Nazi Position, Cutting
Off Retreat.

By The Associated Press
ROME, June 14—Fifth army elements have swung around the heavily-defended strong point of Orbetello, 71 miles northwest of Rome, and captured the important junction of highways No. 1 and 74, some four and a half miles beyond the town, allied headquarters announced today.

Reconnaissance elements pushed still further north. (This movement presumably blocked the retreat route of the Germans defending Orbetello.) To the east the Eighth army advanced 60 miles north of Rome. Gains also were made both east and west of Lake Bolsena and Allied troops were closing in on Narni, seven and a half miles below Terni and 43 miles southeast of Rome.

Other Towns Taken
The town of Latera, four miles northeast of Valentia, was captured by Fifth army units and the advance moved on toward Gradoli, less than two miles farther northeast.

Other fifth army forces were closing in on Bolsena, on the eastern shore of the lake. Meanwhile the Eighth army continued to march up the Tiber valley on a broad front and armored units penetrated several miles north of Magliano.

These troops were advancing under heavy shell fire directed from observation posts high in the hills. Two thousand shells screamed down on the forward troops two days ago, the Germans apparently having determined to fire every possible shell from their dumps as they fell back.

Some Nazi Resistance
While the Germans were withdrawing in some places without resisting, elsewhere advanced Allied patrols encountered concentrated fire from automatic weapons and mortars.

The Germans were planting teller mines whenever they had time, and continued demolitions on a wide scale.

Tattered remnants thrown in to slow the Allied advance even included a number of cavalry units and much horse-drawn artillery. The Mediterranean air force, besides providing support for the advance north of Rome, broadened its activities, RAF night bombers attacking the Munich area early today, a few hours after between 500 and 750 American heavies blasted the same region yesterday.

Program Tonight Featured by \$1,000 2-Year-Old Pace

Four of the country's top young pacers will compete in the \$1,000 "Phantom Fly" two-year-old race in the Little Grand Circuit meeting at the county fairgrounds tonight. Post time is 8:15.

Two \$300 races will supplement the feature event. They are the 17 class pace and the 13 class pace. Following are entries for tonight's races.

CITE GERMAN'S YACHT PARTIES FOR OFFICER

House Committee Files Report
on Studies of Hawaii
Sneak Attack.

By The Associated Press
WASHINGTON, June 14—A congressional committee inquiry into delayed defense preparations at Pearl Harbor produced a report today highlighted by descriptions of yachting parties given for the Army colonel in charge of construction in Hawaii by a German-born contractor who held war department contracts for the work.

The report, by the house military committee, called on the Army for "further explanation" of what it termed "mismanagement" on the part of Col. Theodore Wyman Jr., and why the contracts had been awarded to Hans Wilhelm Rohl, then a German alien although he had been a resident of the United States since 1913. He was naturalized, the committee said, only three months before the sneak Japanese attack on Pearl Harbor.

Asserting there were unexplained delays in construction, particularly in building an aircraft warning system, the report said that had the system been completed on schedule the attack on the Pacific bastion might have been robbed of much of its surprise.

The committee, saying it could not understand "why a man known to be a German alien" was put in charge of the work, developed a portion of its report to Rohl's personal background, noting that he "dragged off close acquaintance with all visiting German diplomats and persons of high rank."

Met in 1935
Wyman and Rohl met in Los Angeles in 1935, the committee stated, and "developed very close social relations" which led, the report added, to parties aboard Rohl's yacht, the "Ramona."

Among entertainments the committee said Rohl provided for the colonel were "wild drinking parties" at which "cheap-looking type of young girls paraded in and out all evening."

The long report contained no conclusions and only brief committee comment. Whether additional reports on the case would be made, said Chairman May (D-Ky.), depends on future developments, adding:

"The next move is up to the war department." H. Ralph Burton, committee investigator who prepared the report, said his last information was that Rohl still was in business in Los Angeles.

The investigation was made by a sub-committee headed by May, with these other members: C. Telle (Calif.); Sparkman (Ala.) and Durham (N.C.), Democrats; and Martin (Iowa); Elston (Ohio) and Fenton (Pa.), Republicans.

Their report was approved by the full military committee. Rohl was a major stockholder in Hawaiian Constructors, a joint contracting venture which held \$125,000,000 in contracts for work in Hawaii, Alaska, and South Pacific islands.

Veteran of Last War
Wyman, 56-year-old veteran of the last war, was an engineer officer in charge of defense construction in the Hawaiian and South Pacific areas. He is now stationed overseas.

The committee said that despite knowledge that Rohl was a German alien, the war department, upon Wyman's recommendation, on Dec. 20, 1940, entered into a contract with Hawaiian Constructors to install defense projects in Hawaii "which meant the safety and protection of the United States."

Less than two months before the Pearl Harbor attack, it added, the department gave the company a contract to begin construction of an air route by way of Canton Island, Canton, Mand., N.Y. (Turn to PEARL HARBOR, P. 6)

U. S. Air Blows at Continent Hit New High

By The Associated Press
SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, June 14—Heavy fighting in the Caen area today, with a high tide of 750 American bombers attacking the German positions in the Caen area, the Allies announced tonight.

The air force today hit the German positions in the Caen area, the Allies announced tonight. The air force today hit the German positions in the Caen area, the Allies announced tonight.

Other British-based formations and U. S. bombers also hit the German positions in the Caen area, the Allies announced tonight.

Bricker Claims
250-300 Votes
Governor's Backers Say He
Will Receive This Number
on First Ballot.

By JACK BELL
Associated Press Staff Writer
A prediction came today from the forces of Gov. Bricker of Ohio that he "will receive between 250 and 300 votes on the first ballot" at the Republican presidential nominating convention.

This report, supplied by directors of the field staff of the Bricker-for-president committee, accorded their man a total of 174 votes now—50 pledged and 124 definitely claimed—and figured the total for Gov. Thomas E. Dewey of New York at 265—72 pledged and 213 "probable."

Dewey supporters, on the other hand, say he has a total of 391. Five hundred and twenty-five votes are needed to nominate and the Bricker people viewed the total of uncommitted delegates as "leaving stronger each day."

G.O.P. Wins Seat
The "first ballot analysis" from the Bricker camp came as the election of a Republican in congress from the 19th Illinois district snuffed house standing to the point that for the first time in 13 years the Democrats lack an actual majority of the house membership.

This election yesterday, of Rola C. McKillen, an opponent of the Republicans 212 members. The Democrats still have 219 but there are four minority party members and thus the Democrats have exactly half the total. There are three vacancies.

Senator Vandenberg (R-Mich.) yesterday put the party on record as far as one individual candidate for a foreign policy plank declaring for "effective cooperation of the nations of the world toward peace and the permanent maintenance of military aggression."

Vandenberg, who heard the G.O.P. platform advisory committee report, said the party should not have suddenly cancelled the orders of several hundred French officers scheduled to land with the first waves of allied troops.

Reports from General Dwight D. Eisenhower's headquarters to the highest military officials here disclosed today that as a result, cooperation between the French population and allied armies has been impaired in the occupied Normandy areas.

This is true, according to officials who are investigating the situation now, even though De Gaulle firmly related to the extent of allowing twenty French officers to go along with the forces assigned to liberate their homeland.

De Gaulle's action with respect to the officers is said to be probably the most important new factor entering into the background of a proposed meeting between President Roosevelt and the leaders of the French national committee here either late this month or early in July. The attitude of French chief and, as a result, the officers at his command, also is given as the reason why President Roosevelt dealt at length in the press conference yesterday on arrangements which had been made for French invasion currency.

These actions of De Gaulle were understood to have strengthened the White House and state department decision against recognizing the liberation committee as a bloc.

(Turn to PEARL HARBOR, P. 6)

ALLIES SEIZE AND LOSE MONTEBOURG, TROARN IN BATTLES

By The Associated Press
SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, June 14—The Germans have flung four armored divisions into fierce fighting to hold their eastern battleline bastion of Caen, the allied command announced tonight, and heavy fighting is raging at Montebourg and Troarn at opposite ends of the 100-mile front with both towns changing hands in the last 24 hours.

The savage German counteraction on the eastern flank in Normandy followed a British drive 23 miles inland outflanking Caen from the west, and the armored struggle is rising in intensity.

4 Nazi Divisions in Action
The four Nazi armored divisions were hurled into the area between Caen and Caumont, 20 miles southwest, seized in the hard British punch.

The U. S. Fourth division fought the Germans fiercely for Montebourg, 14 miles southeast of the strategic port of Cherbourg, and the great guns of the British battleships Rodney and Ramillies thundered in support of the British fight to hold Troarn, seven miles from Caen, taken in an outflanking drive on that bastion, in the east.

Both Germans and the allies have fought into and been thrown out of Montebourg and Troarn in the last 24 hours, headquarters said.

1,500 Planes in Attack
The greatest single striking force of planes in war's history—1,500 American Liberators and Flying Fortresses—battered targets in France and Germany today in air support of the invasion.

Meanwhile in the Caen area south of the bitter Montebourg battle, other Americans of the largest U. S. force ever thrown into fighting in this war chopped deep gashes in the Nazi defense of Cherbourg peninsula. American armored forces there smashed the German tank and the British radio acknowledged a withdrawal of several miles west and north of Caen, with doughboys thus apparently cutting half to two-thirds of the way across the narrow neck of the peninsula.

Headquarters said Americans fighting in the Montebourg area had to give some ground along the road to the sea. The Germans said Caen itself was in flames and was being attacked from all sides. Berlin also reported Allied armored thrusts south of Caumont.

Gen. Sir Bernard L. Montgomery launched a sally on Caen with his thrusts reaching 23 miles inland into the area southwest of the big anchor city. The German radio acknowledged a Nazi withdrawal west and north of Caen, "to spare German lives."

Several-mile withdrawal would put Americans between half and two-thirds of the way across the Cherbourg peninsula at its narrowest point. Berlin conceded that American advances on strips of non-flooded terrain along the front (Turn to NORMANDY, Page 6)

Reveal De Gaulle Refused To Send French on Invasion

By The Associated Press
WASHINGTON, June 13—In the final hours before the start of the invasion of France, General Charles De Gaulle is reported here to have suddenly cancelled the orders of several hundred French officers scheduled to land with the first waves of allied troops.

Reports from General Dwight D. Eisenhower's headquarters to the highest military officials here disclosed today that as a result, cooperation between the French population and allied armies has been impaired in the occupied Normandy areas.

This is true, according to officials who are investigating the situation now, even though De Gaulle firmly related to the extent of allowing twenty French officers to go along with the forces assigned to liberate their homeland.

De Gaulle's action with respect to the officers is said to be probably the most important new factor entering into the background of a proposed meeting between President Roosevelt and the leaders of the French national committee here either late this month or early in July. The attitude of French chief and, as a result, the officers at his command, also is given as the reason why President Roosevelt dealt at length in the press conference yesterday on arrangements which had been made for French invasion currency.

These actions of De Gaulle were understood to have strengthened the White House and state department decision against recognizing the liberation committee as a bloc.

BULLETINS

By The Associated Press
SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, June 14—Heavy fighting is raging in and around Montebourg and Troarn at opposite ends of the Normandy beachhead, with both sides being in and out of the two towns in the past 24 hours, the Allied command announced tonight.

ALLIED HEADQUARTERS, NAPLES, June 14—American heavy bombers attacked seven oil refineries in Hungary and Yugoslavia today, battling their way through some enemy fighters to reach their targets.

LONDON, June 14—A German high command communiqué today said a German armored force had penetrated the Normandy beachhead east of the Orne river and inflicted heavy losses on the Allies. German counter-attacks have regained a number of localities, the communique added, and Berlin radio said an Allied tank group which had broken through near Tilly-sur-Seuilles was intercepted and destroyed.

Club Provides New Showers, Hot Water at Scout Camp

Installation of six new showers complete with hot water heater and tank has been started at Camp Owens, Boy Scout camp, Hugh P. Hay, executive of the Harding Area Boy Scouts announced today.

The shower equipment was purchased by members of the Kiwanis club together with material to finish the shower house. The project expected to cost approximately \$260, is the largest undertaken by the club within the last year. Last season club members furnished athletic equipment and gravel and crushed stone used for the drives at the camp.

The foundation and frame work of the building has been built for some time and this year's operation on July 2 will find the building completed. There have been two shower heads at the camp for a number of years but the boys have never had the benefit of hot water.

The shower house is located in the central part of the camp about 25 feet from a well, from which the water is piped. An electric pumping system will continue to supply the running water for the camp. All of the old plumbing will be torn out and replaced with the new fixtures before the opening of the camp season.

William P. Brown is chairman of the Kiwanis committee, assisted by Deway M. Bohyer and Elmer Shaw.

Contract-Termination

Army School Opened

By The Associated Press
DAYTON, O., June 14.—The Army Air forces "material command," which gave officers special instruction for obtaining war contracts, has opened a contract-termination school, headquarters of the command at nearby Vandallia reported today.

"For many months the MC procurement division has conducted a contract officers' training course at Wright field," command headquarters said in a statement. "Now, in enlarged quarters at Vandallia, the procurement division together will conduct a new course in which hundreds of officers, for termination and property disposal assignments will be trained during the next several months."

ENGINEERS HEAR TALK ON ALASKA HIGHWAY

Middletown Man Tells Story of Big Project

W. H. Spindler of Middletown gave an address last night about the Alaska Highway at a dinner of the Middletown chapter of the Ohio Chapter of the American Society of Professional Engineers. Spindler, who is in the Marine Corps, last year traveled the full length of the highway and "saw" every part of it.

Spindler explained that the Alaska Highway extends from the coast near Dawson Creek, British Columbia to Fairbanks, Alaska. Much of the highway passes through very rugged terrain, through mountains, through swamps, through permafrost, and through some of the most difficult terrain in the world. A number of bridges had to be built, some of which were 1,000 feet long. The highway, Mr. Spindler said, was a tremendous engineering feat and was built by the United States government through much of the highway lies within Canada. The highway has opened an inland supply line to Alaska to further safeguard the defense of this hemisphere and in addition has enabled this country to thrust at Japan from a relatively shorter distance.

Mr. Spindler was accompanied by Marion and introduced by Merlin Hughes, an engineer of the Ohio Corrugated Culvert Co. of Middletown.

Floyd Browne, president of the Marion Chapter, welcomed the speaker and the audience.

Engineer Earl Withner, acting chairman, introduced Mr. Hughes and after the talk announced the next meeting to be held at the Marion Engineer's Dept.

142 Now Active In

Epworth Bible School

Rev. Frank N. Lynch, retired Methodist minister who is making his home here, gave a talk in the last period of Vacation Bible school at Epworth Methodist church this morning. Miss Margaret Huffman, school supervisor, announced that enrollment today, including 114 children and 20 teachers and workers, totaled 142. Registration is still open.

Bible School To Open

June 19 at Prospect

PROSPECT—Rev. J. R. Wynd, director of the daily vacation Bible school for Prospect and vicinity announces the opening date as June 19. The school will continue to June 30 with sessions each day from 9 a. m. until 11:30 a. m. in the Prospect school building. The classes are open to all boys and girls from the age of four through the eighth grade. All four churches, Baptist, Lutheran, Methodist and Reformed are cooperating.

The East Side Garden club and the Prospect Garden club are sponsoring a garden school Thursday, June 15, at the school auditorium. Professor Reis of Ohio State University will give an illustrated lecture on "Landscaping Your Own Home."

Mrs. Kenneth Gust was hostess to the Missionary Aid society of the Lutheran church Thursday. Rev. Paul Dobberstein conducted devotions. Mrs. B. McNeil had the lesson. Mrs. John Anderson and Mrs. Hubert Ackley were guests.

GENERALS MEET KING

By The Associated Press

LONDON, June 14.—Gen. George C. Marshall, U. S. army chief of staff, and Gen. Henry H. Arnold, commanding general of the U. S. Army Air Forces, were received today by King George VI in separate audiences at Buckingham palace.

Headlines emphasizing bad news have been found to stimulate the civilian war effort more effectively than cheering headlines.

HEALTH QUIZ

Do you have poor digestion? ☐ YES ☐ NO
Do you feel headachy after eating? ☐ YES ☐ NO
Do you get sour or upset easily? ☐ YES ☐ NO
Do you feel tired—listless? ☐ YES ☐ NO

Now everyone knows that to get the good out of the food you eat—you must digest it properly. But what most people don't know is that Nature must produce about two pints of the digestive juice—liver bile—each day to help digest your food. If Nature fails, your food may remain undigested, lie sour and heavy within you.

Thus, it is simple to see that one way to aid digestion is to increase the flow of liver bile. Now, Carter's Little Liver Pills start to increase this flow quickly for thousands—often in as little as thirty minutes. When bile flow increases, your digestion may improve. And, soon you're on the road to feeling better—which is what you're after.

Don't depend on artificial aids to counteract indigestion—when Carter's, taken as directed, aid digestion after Nature's own order. Get Carter's Little Liver Pills today—only 25c. You'll be glad you did.

Letters from Our Readers

THE YOUTH PROBLEM

Editor of The Star: After reading several of the letters that were published in the past few weeks, I was amused to see how people's thoughts are going. In Saturday's paper I see a mother is asking for comments on what people think of having better movies. Since I do not go to them I have no idea what they are showing but I do know there are radio programs that are quite good. Thanks to modern mechanisms, by a twist of the wrist we can turn them off, to suit our will. That is much easier than trying to control our youth, by the way, are no worse than they were a few years ago, just bolder is all.

Now to get to the point, I say who is to blame for the way things are going? I believe when the searchlight has found who is at fault it will settle on the older folk. It's time for us parents to ask God for aid, for I just heard a wonderful message preached that with all the confusion and doubt people are experiencing, God has never changed. He is the same, yesterday, today and forever. Praise God for that.

Homes today are places for our young ones to eat and sleep. With mothers in the factory and fathers gone into service it seems the juvenile responsibility has been shifted to the city officials.

Auto Industry Delivers Huge War Goods Order

By The Associated Press

DETROIT, June 14.—In the period from September, 1939, to June 1, 1944, the nation's automotive industry delivered war material totaling \$18,500,000,000 in dollar volume, according to a report today by George Romney, managing director of the automotive council for war production.

Romney said that with the exception of aircraft orders, roughly two-thirds of all war contracts have been filled. In the aircraft program, which has continued to expand until it now constitutes 45 per cent of the industry's deliveries, a little more than one-third of the orders have been filled.

Reports from various companies in the industry, Romney said, show that both the aircraft and marine production programs still are on the up-swing; the military vehicles program holding steady, but over-all production of guns, tanks and ammunition is being cut back by the government.

A partial breakdown of the delivery figure shows the manufacture of completed aircraft, parts and sub-assemblies by the automotive industry accounted for over \$6,000,000,000. Included in this were 250,000 aircraft engines, military vehicles, with 2,015,000 units plus spare parts, was second with more than \$5,500,000,000; tanks were third with deliveries amounting to \$2,250,000,000; guns and marine equipment amounted to more than \$1,250,000,000 each, and miscellaneous equipment came to more than \$500,000,000 each.

Romney said employment in plants of both motor vehicle and body manufacture now stands at 777,000, a slight decline from the high point reached in November, 1943, but considerably above the 514,000 workers employed in June, 1941, the peacetime peak.

Average weekly wage of hourly rated employees, he added, now stands at \$81 compared with \$46 three years ago.

AD MEN HEAR TALK ON POSTWAR ERA

By The Associated Press

COLUMBUS, O., June 14.—Newspaper classified advertising managers were advised yesterday to concentrate on present business sources instead of pinning hopes for future license on a postwar building upswing.

Harrison C. MacDonald, classified advertising executive from LaFayette, Ind., told the silver jubilee meeting of the American newspaper classified advertising managers here that the much-discussed building programs in the postwar era may never materialize.

"A survey discloses that 300,000 new homes will be built in the 10 years following the war," MacDonald said. "This is in contrast to the estimate of 1,600,000 made by other sources."

"A shortage of lumber and skilled labor will be one factor that will likely delay the building program. Another one not to be overlooked is that most people have not planned on spending their wartime savings and will wait to gorge spending on post-war income."

He said three currently fertile fields for classified advertising were real estate, used cars and help wanted advertisements.

Harry Gwaltney of the Milwaukee Journal, founder of the ANCAM, told the conference advertising media will face their stiffest competition in history after the war.

"It is high time," he said, "that newspapers recognized the government as a business competitor and treat it as such."

He asserted that government employment agencies would provide the chief competition of newspaper classified advertising in securing prospective workers for employers in the postwar world.

LOSES LIBEL SUIT

By The Associated Press

CLEVELAND, June 14.—Municipal Judge Lillian Westropp yesterday lost a \$25,000 libel suit against the Cleveland Press, a common pleas jury returning a verdict in favor of the defendant. The suit was based on an editorial published Aug. 15, 1942.

New York's Central Park was laid out in 1811.

CONVICTED OF MURDER

HAMILTON, O., June 14.—Mrs. Emma Agles, 22, last night was convicted of second degree murder in the shooting of Delbert Clark, 24, last Feb. 25. A jury of eight women and four men found her guilty.

Mrs. Agles testified she shot Clark when he made improper advances to her in her apartment after they had toured night spots. In a deathbed statement, read to the jury, Clark declared the woman shot him when he refused her money.

Gas on Stomach

Former Marionite Explosion Victim

By The Associated Press

Mrs. Dorothy York of 118 Williams street received word today that her husband, Mr. H. Williams, who died in the Omaha explosion at a U. S. Army Ordnance depot, was the former Lorene Jones of Marion, sister of Mrs. York, who lived in Marion nearly 15 years before she died about two years ago. While in Marion Mr. Williams was employed in the signaling department of the Erie Railroad here.

MARION AND VICINITY SOLDIERS IN NEWS STORY

Tells of War on Japs in Bougainville Junctions.

A sketch of an exciting episode of the American invasion of the U. S. Army serving on Bougainville island in the Pacific area where her husband is stationed, along with several men of Ohio and this area, was received by a Marion woman recently. The sketch was contained in a clipping sent her by out-of-town relatives. Other men mentioned in the story were from the Kenton, Fredericktown and Mt. Gilead, Sycamore and Nevada communities.

Named as one of the men of the combat division which is aiding in tracking down Japanese remnants in the mountainous jungles of the island, was Pfc. Delbert Hunt, 24, whose wife, Mrs. Catherine Finnegan Hunt, lives at 274 Reed avenue. In personal sketches of the men Pfc. Hunt was listed as one of a group of combat engineers hauling timber for bridge construction and as a member of the American's "I've Never Seen My Baby Club." He is the father of an 18-month-old son. Overseas 21 months, he has been in service two years. Mrs. Hunt is a daughter of Lt. and Mrs. L. W. Finnegan of 274 Reed avenue. Her father is stationed at Camp Thomas Scott, Ft. Wayne, Ind., and she has two brothers in service. Capt. John Finnegan of Chicago university and Lt. Philip Francis Finnegan, stationed in South America.

Other men mentioned in the story included Cpl. Albert P. Garner, son of Mrs. Louisa Garner of Kenton, a technician fifth grade with a bomb disposal group on the island; Pfc. Warren Albright whose wife lives at Fredericktown and who was employed at Mt. Gilead before entering service; a member of a cannon company, Pfc. Grant R. Walton, with a battalion headquarters company; and Mr. John P. Carr of near Nevada, an infantry gunner.

He said three currently fertile fields for classified advertising were real estate, used cars and help wanted advertisements.

Harry Gwaltney of the Milwaukee Journal, founder of the ANCAM, told the conference advertising media will face their stiffest competition in history after the war.

"It is high time," he said, "that newspapers recognized the government as a business competitor and treat it as such."

He asserted that government employment agencies would provide the chief competition of newspaper classified advertising in securing prospective workers for employers in the postwar world.

When a parachute bundle caught on the underside of the troop carrier, two crewmen held Nick's ankles while he hacked away at the parachute with a hunting knife.

We were flying so low it seemed I could put out my hand and touch the ground," Nick said. "There was a lot of firing but all I was thinking was that my knife was terribly dull."

Nick's efforts enabled the pilot to regain control of the plane.

America — *this is it!*

He's doing his part . . . We must do our part!

For him the terrifying grand climax of the war is at hand.

The supreme military risk—bloody, costly in American lives.

Our boys know this. They don't have to read the heart-rending headlines or casualty lists to know what is expected of them.

They are *in it*.

But they are not flinching . . . not holding back.

They will see the grim venture through to the bitter, victorious end.

And if, for your boy, or some boy you know, the price of Victory is death, you can be absolutely certain that he did his part courageously . . . for the cause of Freedom.

For us, too, the terrifying grand climax of the war is at hand.

This supreme, desperate call for American dollars—*16 billions of them*—is to enable our fighting men to carry through the grim, bloody assault to a successful conclusion and Victory.

Not just American dollars—but the dollars in your pocket—in *your* savings account.

You *must* buy War Bonds—*now!* At least *twice* as much as you bought last time. If you are already buying Bonds on a pay-roll savings plan, buy **EXTRA** Bonds during this Drive.

Your Government is counting on you. Your boy—and your neighbor's boy—millions of *them*—are counting on you. Just as desperately as you are counting on them in this fateful hour.

► Don't let them down! Do your part—as they are doing theirs. Dig down, America—dig down deep! While there is still time. This is America's Zero Hour—Civilization's Zero Hour!

And here are 5 MORE reasons for buying EXTRA Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Back the Attack! — BUY MORE THAN BEFORE!

Amazing results in building STURDY BODIES!

- 1—Promote the flow of
vital digestive juices
in the stomach
- 2—Energize your body with
RICH, RED BLOOD!

YOUNG people, especially those of
grammar and high school age, are
prone to be deficient in stomach di-
gestive juices and red blood.
A young person who is operating on
a diet of healthy blood, or a
digestive capacity of only 50
normal is severely handicapped.
In such cases Nature needs extra help.
Stomach troubles or food infection, if
not corrected, must be corrected. These foods
must be digested and rich, red blood
must be present to build sturdy bodies.
S.S.S. Tonic is especially designed (1)
to promote the flow of VITAL DIGES-
tive juices in the stomach which di-
gest the food so the body can make
use of it in tissue building and
(2) to build-up BLOOD
and energy when deficient.
These two important results enable
you to make use of the food as
Nature intended. Thus you may gain a
good appetite, firm flesh, body
energy, mental alertness!

S.S.S. TONIC
helps build STURDY HEALTH

Fitzpatrick Posts Five More Wins in Circuit Meet

Drives Volo Song To Victory in Feature Stake.

By CHARLES ELLIOTT
Marion Star Sports Editor

THE C. J. BAKER stable of St. Charles, Ill., and its ace driver and trainer, Harry Fitzpatrick, have a "controlling interest" in the actual racing aspect of Marion's Little Grand Circuit meeting of so it seemed after results of last night's big-league card were tabulated.

Fitzpatrick posted five more heat wins last night at the county fairgrounds and drove the Volo Song, home of the three races conducted, the Free-for-all Trot and the 23-Trot. These victories give him a total of 12 heat wins for the first five nights of the 15-night meeting, which outstays by far the effects of any other driver piloting entries on the half-mile fairground course. Five events have been captured by the crack Duquesne, Ill., sulky skipper. Some 1,460 fans attended last night's races.

Again, the winners driven last night by Fitzpatrick were owned by the Baker stable, which contains the most highly-prized horses of any stable quartered here for the meeting. Fitzpatrick tallied seven wins on last Saturday night's Circuit program exclusively with Baker-owned horses.

The feature of last night's card and one of the highlights of the entire meeting, the free-for-all trot, was won by the high-stepping Volo Song, the big brown Volomite-bred horse which last August capped his racing career with a victory in the Hambletonian, at Coshen, N. Y. Fitzpatrick drove Volo Song to victory in the last two heats after the Baker stable's star starter broke in the first session to finish last in a field of five horses.

Kentucky Colonel, full brother of Greyhound, world's champion trotter with a record of about 1:55, was winner of the second race the \$300 23-trot in straight race victories. Fitzpatrick also drove Greyhound, a magnificent four-year-old specimen of horse flesh. He's a gray gelding. The final event, the three-year-old stake, was capped by True Hal, brown colt, driven by Harris. True Hal finished first in the first and last heats.

Three Races Tonight

The customary three races are on tap for tonight's program at the fairgrounds. Feature attraction will be the two-year-old \$1,000 pace, titled the "Phantom Filly" stake. Last night's feature was the free-for-all trot. The "Home in Indiana," climactic series of which were shot at the Marion county fairgrounds last September, is having its "world's premier" showing at the Ohio theater tonight. "Phantom Filly" is the name of the book upon which the film "Home in Indiana" is based. Four horses have been nominated for the "Phantom Filly" stake and other races on the card are the 17 class pace and the 18 class pace, both with purses of \$300.

The second race last night, the 23 trot, saw Fitzpatrick and his principal challenger for driving honors in this season's meeting battling for honors. Pallen, driving MacDuff, a brown horse, could do no better than second in each heat, with Greyhound displaying his shoes to top in all sessions. Pallen ranks second to Fitzpatrick in heats won with five.

Volo Song looked as if he were off to a win in the opening heat of last night's feature, grabbing the lead in the backstretch of the first round of the track. He carried the half in 1:06 to lead by a length. Volo Song broke near the upper turn and Blue Boy, driven by Jake Mahoney promptly assumed the lead and went on to win by a head over Fez Hanover. Blue Boy was last season's top trotter with a record of 2:01 1/4 for the mile distance. Fez Hanover was ahead at the start of the second heat of the opening event but Volo Song took the lead before the quarter-pole had been reached. The Song led by five lengths at the half and steadily pulled away until he had won by eight lengths in a time of 2:10 1/4. The Song quickly took first position in the third heat, powering on all six down the middle of the track and was leading by two lengths at the halfway post. He was leading by six lengths going into the home-

MARION-LIMA GAME CALLED IN 3RD; MEET IN TWIN BILL TONIGHT

Red Birds Ahead, 5 to 0, When Rain Halts Proceedings; Locals Get Only 1 Hit.

Special to The Star

LIMA, O., June 14.—Marion's Club and the Lima Red Birds played the first of two doubleheaders at Halloran park, Lima, tonight after their game last night was called in the third inning because of rain, with Lima sporting a 5 to 0 lead.

Tonight's twin bill will start at 6:30 and will consist of two seven-inning contests. Tomorrow night, another doubleheader is slated for Halloran park with the game starting time as tonight's.

A single game was originally set for tonight but since last night's three-inning affair doesn't go down in the record books, a twin bill was thought advisable to make up for the postponement. One of tomorrow's two games was rescheduled from an earlier postponement and the other doubleheaders are scheduled between Marion and Lima on July 4 and Labor Day, both being played at Lima.

Hal Gooden, brother of "Stretch" Gooden, Toledo Mud Hen pitching phenom, and Dick Steinhauer are the probable starting hurlers for Lima tonight. Randy "Lefty" Edwards probably will hurl one of the games for Marion and the other is a loss-up among Lloyd Pace of Cardington and Jack Hill and Alvin Crow, two new acquisitions furnished by the Chicago Cubs.

Lima scored one run in the first inning and three in the third. Marion was able to collect only one hit off Left Hander Dave Roberts of Lima, an infield hit by Pitcher Joe Bill. Jim Hansen caught Hill for Marion.

Newark again took over first place in the Ohio State league last night although not in action. In the only loop hit last night, Middletown's Red Sox were topped by the Springfield Giants, 10 to 6. Bob Faulkner was the winning chucker for Springfield. Middletown is now five percentage points behind the Newark Monarchs of Clay Bryant. Each of the other state league teams moved up a half-game as Newark regained top position. Springfield picked up a full game.

Line score in the Springfield-Middletown game follows:

R. H. E.
Springfield 000 008 310—10 13 5
Middletown 100 011 021—6 13 5

Faulkner and Daues; Houser, Seibert and Zedalis.

Split Duck Season in Prospect for Ohio Sportsmen

By The Associated Press

COLUMBUS, O., June 14.—The Ohio Conservation Commission meets today to act on recommendations made yesterday by sportsmen and farmers from the state's seven conservation districts and to decide Ohio's regulations for the 1944-45 season.

A split duck hunting season was in prospect, pending government approval, commission members indicated last night, after representatives from southern Ohio asked that the state be returned from the northern duck hunting zone to the intermediate.

This was opposed by sportsmen from districts 1 and 2, including 26 northern Ohio counties, who made the counter proposal that the season be divided by keeping all counties forming the state's northern border in the northern zone and returning inland counties to the intermediate zone.

Under this proposal inland counties would have a duck hunting season opening about two weeks later than the northern season.

Ohio was once in the intermediate zone, but at the request of Lake Erie sportsmen the entire state was moved to the northern zone.

Reds Hope in Snap Losing Streak Tonight

By The Associated Press

CINCINNATI, June 14.—The Cincinnati Reds hope to end a four-game losing streak tonight by sending Bucky Walters to the mound against the Pittsburgh Pirates.

Last time they were in the win column was the last appearance of the dependable righthander who goes after his tenth victory of the season.

Since then Cincinnati has dropped three to the St. Louis Cardinals and yesterday's abbreviated game to the Pirates.

SOFTBALL THIS WEEK

By The Associated Press

DETROIT, June 14.—The eight seeded players in the women's division were paired off today in quarterfinal matches of the National Clay Court tournament at the Detroit Tennis club, taking the play away from Francisco Segura of Coral Gables, Fla., and Billy Talbert of Indianapolis, who are threatening their way toward the men's finals.

Red Sox Place Strong Bid For American Loop Flag; Defeat A's

By The Associated Press
The Boston Red Sox are close to winning out as pennant contenders in the American League while the Cleveland Indians are still in the race for the National League.

The second place Sox crushed up their rivals straight up yesterday by beating the Philadelphia Athletics, 7 to 2, behind the veteran Joe Judge. The Sox have won 10 of their last 12 games and are now in first place in the American League.

Three home runs, one of them by Dixie Walker with two on in the fifth, gave Brooklyn a 9 to 4 victory over the Giants at Ebbets Field yesterday.

The Detroit-Cleveland game was rained out.

Three Industrial league softball games scheduled for last night were postponed because of rain and will be played on an open date later in the season.

Games that were rained out last night were the Marion Steamers-Sheridan-Huber Mfg. contest at Lincoln park, the Fairfield Park-Universal Cooler fray at Garfield park and the General Excavator-Commercial Steel game on the McKinley park diamond.

The next regularly scheduled games in the Industrial league will be played next Tuesday, when Huber will meet Fairfield's General Excavator will face Steamers, and Commercial and Cooler will clash.

The Commercial league will have three games tomorrow night with Kelly Dairy playing Steamers, Bar Marion Metal meeting Co. M. of the Ohio State Guard and DeMolay and Waldo squaring off at Lincoln park. Starting time for all tonight softball
